BUTTERFLY BUSH; SUMMER LILAC.

One of the most desirable Summer-flowering shrubs. Each Spring it throws out 4- to 5- foot stems in numbers, making a bushy plant, covered from July to frost with delicate flowers of dainty beauty and fragrance, attracting so many butterflies as to give it the common name. The cool, pale blue color of the blooms and its constant blooming habit make this one of the best shrubs. 2 yr. old.....Each 85c

BARGAIN PRICE LIST

1932

Free! Any 85c selection from this Price List FREE with each order of \$5.00 or over.
Order direct from this Price List.

We positively guarantee all plants sold by us to be exactly as described in this list, and free from disease and insect pests. We also guarantee them true - to - name, and will replace, free of charge, any that may prove otherwise through possible error. Complaints must be received within ten days after receipt of stock. While we guarantee all plants to reach you in good growing condition, we do not guar-

antee crop, and cannot be held responsible if later the plants fail. The life of a plant after it reaches the planter in good condition depends entirely upon conditions over which we have no control, so it is therefore agreed that in no case shall the FISCHER NURSERIES be liable for more than the original purchase price.

A field of our hardy Carnations (Grenadin). This variety is perfectly hardy.

A field of our Delphiniums; hybrid and Belladonna types.

DEUTZIA

Pride of Rochester. One of the best. Straight, upright grower, attaining 6 to 8 feet at maturity. White flowers, outer petals tinged with pink, borne in great profusion in June. 4 shrubs 85c

CYDONIA - QUINCE—2-3 feet

Japonica (Japanese Quince). One of the earliest heralds of Spring, its great splash of scarlet color marking the final departure of Winter. The impatient blooms are out before the leaves appear, dainty single blooms covering the branches with dazzling red. The leaves are glossy green. It bears small fruits, but these are not edible. Valuable for early blooming, is bright colored, grows 3 to 6 feet in height and does best in a sunny location. 1 shrub 85c

BERBERIS - BARBERRY (3-4 yrs. old).

Thunbergi (Japanese Barberry). A plant of many uses and varied attractions. Is beautiful every month in the year. In the Spring the leaves are bright green turning to deeper green in the Summer and in the Fall the leaves take on Autumn tints of red, yellow and bronze. The small, inconspicuous flowers are fragrant. They are followed by berries that ripen red and hang on all Winter. Barberry leaves will stand the heat and dust of Summer. It makes a first rate low hedge, works attractively into foundation and porch plantings of shrubs and is attractive enough to stand alone, although at its best in group plantings. The Japanese Barberry is the one that does not harbor wheat-rust; it is perfectly harmless. Grows 3 to 4 feet in height. Healthy and hardy and grows anywhere, in any soil.

6 to 10 inch \$3.00 per 100
10 to 15 inch, bushy \$4.00 per 100
18 to 24 inch, bushy \$6.00 per 100
